

# Battery/Mains Powered Saw

## Paediatric

Specifically developed for paediatric use, the Red Dot award winning CSP System is exceptionally quiet and compact minimising patient anxiety. The CSP System offers both battery and mains power options, and lithium ion battery technology provides an unrivalled power to weight ratio.

### CSP-201 Saw

with BP-201  
Pro battery pack

#### Saw specification

Order code	1286994
Saw model	CSP-201
Oscillating speed	14800 - 17500 cpm
Handpiece weight	319 grams
Noise level	55 dB(A)

- Soft start feature with noise control helps minimise patient anxiety.
- Rapid charging time - under 3 hours.
- Continuous 2 hour - cutting performance.
- Built-in service reminder - 300 charging cycles.
- Display allows the user to select the optimum cutting speed and view the remaining battery capacity.
- Micro processor controlled voltage booster ensures constant cutting performance - zero deterioration. See graph below.

#### Battery specification

Order code	15250
Battery pack model	BP-201
Battery capacity	30.8 Wh
Battery weight	437 grams
Charging time from flat	> 3 hours

An integral clip with both battery pack or mains power adaptor for increased portability.
